EnSave CEO Attends Rural Electricity Resource Council Conference

Richmond, VT, July 10, 2009

EnSave CEO Craig Metz recently attended the Rural Electricity Resource Council (formerly the National Food and Energy Council) Conference, which was held April 21st and 22nd in Cincinnati, Ohio.

Mr. Metz met with key energy efficiency colleagues from the Midwest and New York State. He discussed with them how EnSave's farm energy audits could support their energy efficiency projects in their own states.

"Farm energy audits are a key tool to help farmers increase the energy efficiency of their operation. It shows them what will work for their farm now, in addition to giving them a plan for the future," said Metz.

EnSave is a member of the Rural Electricity Resource Council.

About EnSave:

EnSave supports the American agricultural sector with innovative energy efficiency and resource conservation programs. EnSave provides agricultural producers and food processors with cost effective ways to reduce operating costs while saving energy while conserving our nation's resources. EnSave's clients include state and federal energy and environmental agencies, investor-owned utilities, and rural electric cooperatives. EnSave implements its programs by developing relationships with equipment manufacturers, local equipment dealers, and the local agricultural community. Ultimately, these programs promote economic investment in the rural economy and improve the quality of America's land, air, and water.
