Richmond, VT. July 12, 2006

EnSave, Inc. has been awarded a contract to operate the Dairy Energy Efficiency Program for Pacific Gas & Electric Company (PG&E). This contract is an expansion of EnSave's successful California Multi Measure Farm Program, which operated from 2004-2005.

EnSave is one of a handful of contractors whose program was selected for continuation in PG&E's 2006-2008 energy efficiency portfolio.

The Dairy Energy Efficiency Program offers rebates on several types of energy-efficient equipment, including milking equipment, lighting, ventilation, controls, and motors. Rebates are offered to dairy producers as well as dairy food processors. "We are delighted to be able to increase the types of qualifying equipment," said Craig Metz, EnSave's Vice President. "It is a great opportunity for PG&E's dairy customers to save energy and money."

Interested PG&E customers should call EnSave at (800) 732-1399 for more information about how to apply.

About EnSave:

EnSave supports the American agricultural sector with innovative energy conservation and pollution prevention programs. EnSave provides agricultural producers and food processors with cost-effective ways to reduce operating costs while saving energy and reducing pollution. EnSave's clients include state and federal energy agencies, investor-owned utilities, rural electric cooperatives, and state and federal environmental agencies. EnSave implements its programs by developing relationships with equipment manufacturers, local equipment dealers, and the local agricultural community. Ultimately, these programs encourage economic investment in the rural economy and improve the quality of America's land, air, and water.

California consumers are not obligated to purchase any full-fee service or other service not funded by this program. This program is funded by California utility ratepayers under the auspices of the California Public Utilities Commission.

Los consumidores en California no están obligados a comprar servicios completos o adicionales que no esten cubiertos bajo este programa. Este programa está financiado por los usuarios de servicios públicos en California bajo la jurisdicción de la Comisión de Servicios Públicos de California.
