EnSave CEO Attends National RC&D Conference

Richmond, VT, July 10, 2009

EnSave CEO Craig Metz recently attended the *Partnerships Delivering Positive Change in America's Communities* conference, which took place June 14-17th, 2009 in Albuquerque, New Mexico. This was also the National Association of Resource Conservation and Development Council's (NARC&DC) annual meeting.

While in attendance, Mr. Metz participated in various sessions and met with RC&D Council members.

"EnSave is proud to have partnership with the NARC&DC," said Metz. "Farmers often rely on their local RC&D councils to let them know when opportunities arise to save money on the farm. By partnering with the National Council and the local councils, EnSave is able to go straight to the source to ensure farmers are getting the information they need regarding energy efficiency on their farms."

EnSave's partnership with NARC&DC began in December of 2007. Since then, both EnSave and local RC&Ds have partnered to bring energy efficiency programs and farm energy audits to farms across the United States.

About EnSave:

EnSave supports the American agricultural sector with innovative energy efficiency and resource conservation programs. EnSave provides agricultural producers and food processors with cost effective ways to reduce operating costs while saving energy while conserving our nation's resources. EnSave's clients include state and federal energy and environmental agencies, investor-owned utilities, and rural electric cooperatives. EnSave implements its programs by developing relationships with equipment manufacturers, local equipment dealers, and the local agricultural community. Ultimately, these programs promote economic investment in the rural economy and improve the quality of America's land, air, and water.
