**EnSave Continues Farm Energy Audits for North Carolina**

Richmond, VT, February 15, 2010

EnSave is continuing to provide farm energy audits for the North Carolina Farm Bureau. Since 2009, EnSave has provided over 30 farm energy audits for North Carolina Farm Bureau members, with several more on the way. These audits will help identify ways for farmers to save money on their energy costs.

Additionally, these audits will help these farmers apply for funding through the USDA's Rural Energy for America Program, which offers grants and loans for energy efficiency and renewable energy projects.

"We are pleased to be continuing our relationship with North Carolina Farm Bureau," says Craig Metz, EnSave's CEO. "It's great to be able to help these farmers reduce their energy costs."

The program is accepting applications now. Interested farmers should contact the Farm Bureau's Lendy Johnson, at (919) 782-1705.

**About EnSave:**

EnSave supports the American agricultural sector with innovative energy efficiency and resource conservation programs. EnSave provides agricultural producers and food processors with cost effective ways to reduce operating costs while saving energy while conserving our nation's resources. EnSave's clients include state and federal energy and environmental agencies, investor-owned utilities, and rural electric cooperatives. EnSave implements its programs by developing relationships with equipment manufacturers, local equipment dealers, and the local agricultural community. Ultimately, these programs promote economic investment in the rural economy and improve the quality of America's land, air, and water.
