EnSave Attends World Ag Expo

Richmond, VT, February 15, 2010

Two EnSave representatives attended the 2010 World Ag Exp held in Tulare, CA. As an exhibitor, EnSave met with colleagues from across the agricultural industry, and also reconnected with several farmers who had participated in EnSave's programs. Many attendees were interested in the Dairy Energy Efficiency Program, operated for Pacific Gas & Electric Company customers.

"It was wonderful to connect with so many producers we have worked with in the past," says William Chalmers, Program Representative. "It's always good to hear from producers who are happy with their energy savings."

As the leading agricultural energy efficiency company, EnSave finds the World Ag Expo to be an important part of its visibility within the agricultural community. EnSave has attended the World Ag Expo since 2004.

About EnSave:

EnSave supports the American agricultural sector with innovative energy efficiency and resource conservation programs. EnSave provides agricultural producers and food processors with cost effective ways to reduce operating costs while saving energy while conserving our nation's resources. EnSave's clients include state and federal energy and environmental agencies, investor-owned utilities, and rural electric cooperatives. EnSave implements its programs by developing relationships with equipment manufacturers, local equipment dealers, and the local agricultural community. Ultimately, these programs promote economic investment in the rural economy and improve the quality of America's land, air, and water.
