EnSave to Provide 25 Farm Energy Audits in New Hampshire

Richmond, VT, December 1, 2009

EnSave has partnered with Southern New Hampshire Resource Conservation & Development Council to provide 25 farm energy audits to farmers throughout the state. Funded by a Regional Greenhouse Gas Initiative grant through the New Hampshire Public Utilities Commission, the program will help uncover opportunities for farmers to reduce their energy costs. By saving energy, these farmers will also help reduce overall greenhouse gas emissions.

In 2009, EnSave trained New Hampshire Resource Conservation & Development staff in the data collection procedure for farm energy audits. Now, EnSave will be working with these data collectors to provide energy audits for New Hampshire farmers.

Interested farmers should contact the New Hampshire Farm Energy Program at 603-223-0083 or email: nhfarmenergy@gmail.com. Producers must apply by January 31, 2010 for the first round, and March 31, 2010 for the second round.

About EnSave:

EnSave supports the American agricultural sector with innovative energy efficiency and resource conservation programs. EnSave provides agricultural producers and food processors with cost effective ways to reduce operating costs while saving energy while conserving our nation's resources. EnSave's clients include state and federal energy and environmental agencies, investor-owned utilities, and rural electric cooperatives. EnSave implements its programs by developing relationships with equipment manufacturers, local equipment dealers, and the local agricultural community. Ultimately, these programs promote economic investment in the rural economy and improve the quality of America's land, air, and water.
