EnSave Attends Soil and Water Conservation Society Meeting

Richmond, VT, August 7, 2008

EnSave's Government and Special Projects Coordinator Lynn Knight recently attended the 2008 Soil and Water Conservation Society annual meeting, held July 26-31st, in Tucson, Arizona.

Lynn Knight tended the EnSave booth in the exhibit hall, and participated in several networking sessions. She attended the President's Suite Reception, the *Energy in Agriculture* workshop, Northeast Regional Roundtable, the Leadership Event for Corporate Members and Board of Directors, and the networking social reception and dinner.

"This was a great opportunity for us to really connect with the Society's members," said Lynn Knight. "In the end, we're all advocating for the same thing – the conservation of our natural resources. I think that by working together, we'll be able to meet this goal head on."

EnSave is a proud Bronze Corporate Member of the Soil and Water Conservation Society. For more information on this Society, please visit <http://www.swcs.org/>.

About EnSave:

EnSave supports the American agricultural sector with innovative energy efficiency and resource conservation programs. EnSave provides agricultural producers and food processors with cost effective ways to reduce operating costs while saving energy while conserving our nation's resources. EnSave's clients include state and federal energy and environmental agencies, investor-owned utilities, and rural electric cooperatives. EnSave implements its programs by developing relationships with equipment manufacturers, local equipment dealers, and the local agricultural community. Ultimately, these programs promote economic investment in the rural economy and improve the quality of America's land, air, and water.

EnSave has partnerships with the National Association of Resource Conservation and Development Councils and the National Association of Conservation Districts to work with local councils and districts on energy efficiency and resource conservation projects.
